Introduction

Enterprise Architectural manufacture and supply aluminium ceiling grid systems, aluminium extrusions, steel ceiling grid systems and metal pan ceiling tiles to the commercial construction and infrastructure sectors.

Enterprise principals, Steve Milner, Mauro Corazzi, Daniel Rushton, and Rocky Lokeni have over 100 years of combined experience in the ceiling industry, specialising in the design, manufacture and installation of large-scale A grade commercial and infrastructure projects.

The design and procurement team at the Enterprise Group are expert in developing new ceiling systems to satisfy specific architectural requirements. Utilising our strong relationships with ceiling installation contractors, we develop solutions that are both cost effective and designed to minimise installation time. Our solutions reduce the amount of time required onsite by maximising offsite assembly and designing the grid systems for easy alignment.

Design development is achieved with flexibility and quick turnaround times due to Enterprise direct contact with our dedicated ceilings manufacturing facility.

The Enterprise point of difference

- ✓ Involvement with stakeholders from design, manufacture, delivery through to installation and practical completion
- ✓ Vast experience in bespoke ceiling systems
- ✓ Engineering for seismic compliance
- ✓ Astute delivery team to ensure timelines are managed
- ✓ Value engineering to maintain or better budget targets as required

The Project team

Completed Projects

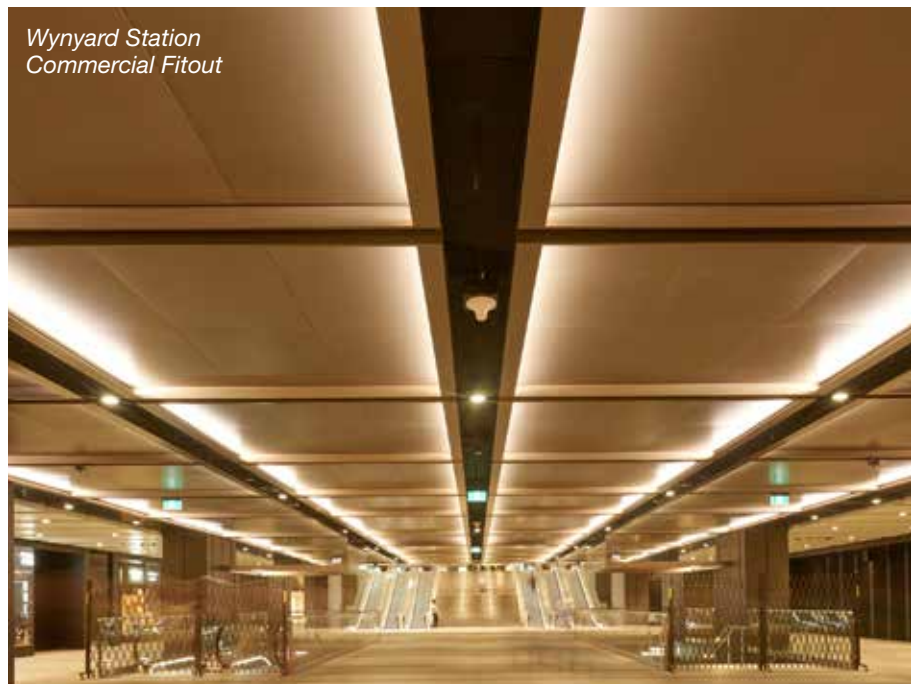

- ✓ 2 Park Street, Sydney
- ✓ 363 George Street, Sydney
- ✓ 1 Bligh Street, Sydney
- ✓ BHP Tower, Perth
- ✓ 161 Castlereagh Street, Sydney
- ✓ 5 Martin Place, Sydney
- ✓ 50 Martin Place, Sydney (Macquarie Bank)
- ✓ Barangaroo Commercial Towers
- ✓ Capital Square, Perth
- ✓ Darling Quarter, Sydney
- ✓ 111 Eagle Street, Brisbane
- ✓ CCT8, Adelaide
- ✓ SA Water, Adelaide
- ✓ Wynyard Place Tower, Sydney
- ✓ Wynyard Transit Hall, Sydney
- ✓ 1 Denison Street, North Sydney
- ✓ Circular Quay Tower, Sydney

Brookfield Place, Sydney

Product Offering

Enterprise Architectural offer a complete range of metal ceiling solutions including concealed or exposed grid metal pan tile, aluminium extrusion systems, expanded mesh, bespoke design ceilings, and a variety of perimeter and transition trim options.

Enterprise Architectural ceiling solutions have been designed in consultation with Structural and Seismic engineers to ensure compliance with relevant Australian Standard and Codes.

In particular:

- AS/NZS 1170.0 Structural Design Actions,
Part 0: General Principles
- AS/NZS 1170.1 Structural Design Actions,
Part 1: Permanent, Imposed and Other Actions
- AS/NZS 1170.4 Structural Design Actions, Part 4: Earthquake Actions in
Australia
- AS/NZS 2875 Suspended Ceilings – Design and Installation
- AS/NZS 16764.1 Aluminium, Part 1: Limit State Design

Our ceiling system components are manufactured in an ISO9001 accredited manufacturing facility that has been providing ceiling systems to the Australian market for over 30 years. All raw materials are sourced to strictly comply with international standards

Enterprise Architectural metal ceiling systems offer a 25-year warranty dependent on project specific requirements.
